

Fall Prevention Solutions

We now supply a great selection of wired and wireless fall prevention equipment. This innovative range gives you more choice and more solutions to prevent falls and possible serious injuries. This equipment can function as a stand-alone unit or connect to a nurse call system.

Deluxe Mat, Floor + Alertamat

The Alerta Mat Systems are designed to trigger an alarm when the user stands on them. They are most effective when placed at the bedside or doorway. The Deluxe Mat is luxury carpet which provides a distinguished look, ideal for situations where a user may try to avoid the mat.

Bed Alertamat

The Alertamat system is for use on a bed. This can be placed underneath the sheet. It's soft feel makes it discreet and comfortable. It activates an alarm when a user leaves their bed.

Chair Alertamat

The Chair Alertamat is most effective when concealed under the cushion. When the user tries to get off the chair the alarm will be activated to give the caregiver a warning that the user is getting off the chair.

Wireless Alerta Button

The Wireless Alerta Call Button provides the user with assurance that help is at their fingertips. With a large, easy to press button it activates an alert to the caregiver that their attention is required. It comes with a lanyard and a holder that can be mounted to the wall.

Wall Point Receiver

The Alerta Wall Point Receiver can be paired with up to 5 devices and has a range of up to 95 meters. It is compatible with the Chair Alertamat, Bed Alertamat, Floor+ Alertamat, Deluxe Alertamat, Alerta Detect PIR and the Wireless Alerta Button.

Alerta Detect

The Alerta Detect can help prevent a user from falling by triggering an alert when movement is detected. It can be mounted at the door or bedside. This can be an alternative solution to the Alertamats.
