

iPad Control

Hook+ Switch Interface

Hook+ is an Apple MFi approved switch interface that provides a reliable wired connection to the iPad, iPhone, or iPod touch via the Lightning connector. To get started, simply connect one to four switches to Hook+, turn Switch Control on, and connect Hook+ to your iDevice.

Once Hook+ is connected and Switch Control is configured, you can do almost anything on an iDevice with a switch. Read an eBook, write an email, browse the internet, play games, control your home, and much more! For more information on our full range, visit us at www.odelmobility.co.uk

Blue2 Bluetooth Switch

The NEW Blue2 Bluetooth switch provides single or dual switch access to iDevices running iOS 7, Apple desktop or laptop computers running OS X Mavericks, and all switch accessible apps or software on iOS, OS X, Windows, and Android! Blue2 connects to your favourite device via a Bluetooth connection that is easy and quick to set up. Program one to four custom keystrokes for use with any app or software.
